# Pre Primary

## Diwali Celebration

The festival of light was celebrated by the pre-primary students on 8th November. Students came dressed in vibrant colours. They participated in activities like dance, card making, wall hanging. It was a fun and engaging day with the little ones

## Celebrating Children's day

Bubbling with curiosity and enthusiasm the early years kids embarked on an exciting field trip to Domino's, on Friday, 24 November 2023. As they entered Dominos they whiffed the air that was filled with the aroma of freshly baked dough and delicious toppings. The staff guided our students with the pizza making process and our little learners enjoyed tapping the dough and spreading sauce and cheese. The students also had a tour of the cold storage and experienced how pizzas are baked in large ovens. At the end of their experiential learning the students relished the pizzas that they had helped to create. They left the outlet with cherishing memories of making their own delicious pizzas.

The surest way to a child's heart was to spend time with them at Domino's Pizza outlet; and we couldn't agree more

# Primary

## Guest Speaker visit- Grade 2

The students of Grade 2 got the opportunity to interact with the community helper's. As an integrated part of learning, 3 guest speakers were called to interact with the students of MBIS. Our respected Principal Ms. Padmajaa Kutty, Chef Mr. Akhilesh Iyer and ex-army officer Mr. Vaibhav Pareek shared their personal insights on their respective fields. It was astonishing to see the students be so inquisitive and ask the speakers various questions about different topics. It was great to see the speakers impact young minds, adding to their knowledge and teaching them to always ask questions to keep learning.

## Diwali Celebration

On the 8th of November 23, the students of the primary section celebrated Diwali. Students in traditional and colourful clothes mingled about in joy, sharing food with one another during lunch hour. A lot of fun games were played in the classroom. The homeroom teacher told the students the significance of this festival.

## Children's Day Celebration

Children's Day is something all our students look forward to celebrating with their friends at school. This year Children's Day was during the Diwali holidays and so our wonderful students missed it. We took this opportunity at MBIS to surprise our Primary students post Diwali vacation. They were treated with a delicious snack box that was relished by them and kept their enthusiasm high throughout the day. Not only that, we ended the day with another power packed surprise, a captivating magic show that kept our young audience on the edge of their seats. Our talented magician performed mind-boggling tricks, illusions, and mesmerising acts that left our students spellbound. We believe in creating delightful memories for our children. Our unique Charlie Chaplin magician ensured to make students giggle with joy with his funny antics throughout the magic show. We got to witness happy faces, excited cheers, and moments of pure wonder as our children experienced a day full of magic, fun, and amazement on this special occasion.

## Interhouse Basketball Competition Grades 3 to 5

MBIS organized an Inter House Basketball competition for both boys and girls on Friday, 3 November 2023 for the (grades 3 to 5).

**The results are listed below:**

First Place Emerald house

Second place Sapphire house,

Third place Topaz house,

Fourth place Ruby house.

# Our Achievers of Rangotsav at National level

Heartiest Congratulations to many of our students who have received awards for different categories for the Rangotsav competition.

Rangotsav Celebrations is a renowned organisation in the Art World, who conduct National and International Art Competitions to expand the creative footprints globally, and emphasise the significance of Art and Culture in the young minds.

We are proud of our National Champions who will get the golden opportunity to participate in the International level art competition conducted by Rangotsav Organization from 15 December 2023 to 15 February 2024 to enhance their creative footprints on a global platform.

## Congratulations

### National Level Achievers of the Colouring Competition in Rangotsav Celebrations - National Level Art Competitions

**Rajasvi Goenka**  
Grade 10, Art Merit Award

**Sana Salunke**  
Grade 7, Secured 2nd Rank

Grade 3, Secured 4th Position

# Nursery

## Area of Inquiry

In our Area of Inquiry on "Animal Kingdom" students were having fun learning about different wild animals. Students also learnt about wild animals with spots, they were excited to dress up in clothes with spots and participated in various group activities like tooth brush painting on the big picture of giraffe and cheetah, making collage in group with pictures of animals with spots and making spots on cheetah headgear as a takeaway on their way back home.

## Numeracy

Students enjoyed making a robot with square cut outs and counting four corners and four sides of the square.

# Sr.Kg

## Literacy:

Students learnt the -od family words by guessing the correct word game and later they coloured the pea pod outline given to them followed by writing all the words on small chits and made it into a mini flip book.

## Numeracy:

Students learnt the days of the week by unlocking the correct letter game and made a beautiful rainbow of days of the week and wrote each day on the rainbow coloured strips given to them.

# Secondary

## Children's day celebration

Joy, laughter, fun, and banter filled the air as MBIS celebrated Children's Day on Friday, 24th November. A much-awaited celebration that saw both teachers and students participate with great enthusiasm and gusto as it depicted a stunning exhibit of performances dedicated by teachers to their students.

Breaking away from the academic routine, the teachers took centre stage to dance and sing, turning the school premises into a lively carnival of joy. While the teachers danced to a medley of popular songs, students found themselves grooving to the beats as cheers and thunderous applause echoed through the hall. Their radiant smiles served as a powerful testament to the success of the mesmerising performances.

Our talented lot of educators leave no stone unturned when it comes to expressing how precious and dear our students are! Without much ado, they seamlessly transitioned into a melodic band, serenading them with songs expressing how each learner is a radiant and beautiful ray of light, casting their brilliance upon the school. Fun and frolic doubled as participants enjoyed the game of 'Bombing the city', turning the celebration into a memorable event of togetherness and camaraderie.

In conclusion, the Children's Day celebration at Mainadevi Bajaj International School was a joyful and enriching experience for everyone involved. It gave teachers an opportunity to not only cherish the joy and happiness of our students but also strengthen the bond between them.

## EUMIND – First Video Conference – MBIS & Berlage Lyceum

Goedemorgen, Mr. Nathan and my fellow students (Good morning) was the word that quickly acted as the ice breaker also prompting a sense of astonishment in the eyes of Mr. Nathan the coordinator of our international partner school. Our Principal Dr. Padmaja Kutty hosted the first video conference session between Mainadevi Bajaj International School and our international partner school Berlage Lyceum through the EUMIND programme.

Dr Padmaja Kutty then continued to seamlessly take the students through the session that began with a small introduction of the groups by their group leaders followed by each group member asking questions to their respective counterparts. The session ended with a song by Mainadevi Bajaj International School students to remind us all that divine power though called out in different names have the same impact of promoting positivity and growth around us all. Students of both schools indeed felt it was an amazing and unique experience and they would cherish this moment for years to come. The students of Mainadevi Bajaj International School were also looking forward to having a student exchange programme in the near future.

## Teacher Enrichment Programme

At MBIS, a peaceful mind and a sense of self-reflection is of utmost importance. Owing to that, Ms. Shruti Sawant had facilitated a workshop which embarked with a warm up and upper body stretching, followed by face yoga.

Face yoga is a holistic approach to facial fitness that combines traditional yoga principles with targeted exercises for the muscles of the face and neck. It aims to enhance the tone and elasticity of facial muscles, reduce the appearance of fine lines and wrinkles, and promote overall skin health. By incorporating various facial expressions, stretches, and massages, face yoga enthusiasts believe they can stimulate blood flow, increase collagen production, and ultimately achieve a more youthful and radiant complexion. Proponents of face yoga argue that regular practice not only contributes to physical benefits but also promotes relaxation and stress reduction, offering a natural and non-invasive alternative to more conventional anti-aging treatments.
